

Deliverable D5.4

POSTERS, POWERPOINT OF ESRs FOR THEIR PRESENTATION AT THE INTERNATIONAL CONFERENCES AND WORKSHOPS

Document type **Deliverable D 5.4**

Document Version / Status **1.2 - First issue**

Primary Authors **Simon Etzold, etzold@ghi.rwth-aachen.de, Thorsten Tonnesen tonnesen@ghi.rwth-aachen.de, RWTH**

Distribution Level **PU (Public)**

Project Acronym **ATHOR**

Project Title **Advanced Thermomechanical multiscale mOdelling of Refractory linings**

Grant Agreement Number **764987**

Project Website **www.etn-athor.eu**

Project Coordinator **Marc Huger, marc.huger@unilim.fr, UNILIM**

Document Contributors **Daria Barsuk, daria.barsuk@unilim.fr, UNILIM
Marc Huger, marc.huger@unilim.fr, UNILIM**

Description: As part of their professional training, ESRs will have the responsibility to organize and chair sessions at an international conference. ESRs will be exposed to a range of interdisciplinary approaches to develop broader knowledge. This report will review these activities for each ESR.

Change log

History of changes

| Version | Date | Author (Organization) | Change | Page |
|---------|------------|--|--|------|
| 1.0 | 04.04.2018 | Simon Etzold, Thorsten Tonnesen (RWTH) | First version of the D 5.4 deliverable created | all |
| 1.1 | 05.04.2018 | Daria Barsuk (UNILIM) | Updated | all |
| 1.2 | 05.04.2018 | Marc Huger (UNILIM) | Updated and ready for submission | all |

Table of contents

| | |
|---|----------|
| 1. PROGRESSIVE ARRIVAL OF ESRs | 2 |
| 2. ESRs ATTENDANCE TO CONFERENCES, WORKSHOPS AND SITE VISITS | 2 |

1. Progressive arrival of ESRs

Since the personal start dates of the ESRs deviate within a timespan from January to June 2018 and therefore most ESRs still are in the beginning of their scientific work, contributions to international conferences in terms of oral presentations and publications will be scheduled to 2019. Nevertheless, an internal poster event will be hosted during an upcoming training session (September 24th and 25th in Aachen, Germany) to provide an opportunity to present the current state of each PhD project and to improve the presentation skills while exchanging scientific results within the ATHOR network.

Furthermore, the hosting organization of the International Colloquium on Refractories (ICR) has been contacted to inquire possibilities to expand this internal poster event to a public level during the mentioned conference (September 26th and 27th in Aachen, Germany).

2. ESRs attendance to Conferences, Workshops and Site Visits

Within the year 2018 the following mandatory International Conferences (IC), Workshops (WS) and Site Visits (SV) are scheduled:

| Event Name | Location | Dates |
|---|----------------------|---|
| ATHOR - RHI-Magnesita Technology Center Visit | Leoben, Austria | 2018, June, 15 th |
| ATHOR - Poster Session | Aachen, Germany | 2018, September 24 th – 25 th |
| ATHOR - TataSteel Plant Visit | IJmuiden, Netherland | 2018, September 28 th |
| International Colloquium on Refractories | Aachen, Germany | 2018, September 26 th - 27 th |

A complete survey of all past and upcoming events is given by the merged Excel document “*ESRs attendance to Conferences, Workshops and Site Visits*” available by the following public link: <https://ucloud.unilim.fr/public/esr-conferences-workshops>

Within this document, all information regarding the type of contribution (e.g. poster, oral presentation, visitor, ...) of each ESR to the different Conferences, Workshops and Site Visits is gathered and updated on a regular basis. For a closer description of the training programme provided by ATHOR please refer to Deliverable *D5.5 - Detailed programme of each training event*.

The templates for [poster](#) and PowerPoint [presentation](#) are currently available on Ucloud project platform.
